8. Is the AltMOC based on an AltMOC from another authority	Yes <input checked="" type="checkbox"/> Which: ____ U.K. _____ No <input type="checkbox"/>

9. Summary of AltMOC	<p>The Danish Authority will give Senior Examiners the privileges to perform Examiner assessments on Type Rating Examiners without fulfilling the requirements of FCL.1000 (a) (1) as long as the Senior Examiner is rated on an equivalent type.</p> <p>These privileges will be given to the Senior Examiner on a case to case basis with a written approval from the Danish Transportation Authority.</p>
10. Summary of assessment	<p>Due to the large numbers of different aircraft types, it will require a very large numbers of Senior Examiners to perform the required numbers of assessments on each individual type, making it impossible to follow an effective standardisation program.</p> <p>Since the Examiner assessment is not type specific in the AltMOC, it will be more effective to have a Senior Examiner qualified on an equivalent type with high experience on that type and with several assessments a year as Senior Examiner, than an Senior Examiner with only very little experience and few assessments per year on the given type.</p> <p><u>With reference to AMC1 ARA.FCL.205 Monitoring of examiners</u></p> <p>QUALIFICATION OF INSPECTORS, this AMC allows an Inspector to perform these assessments, without being rated on the applicable type. With the very strict standardisation program the Danish authorities applies on its Senior Examiners including several standardisation meetings a year with attendance requirements, the Senior Examiners will be equally qualified for this task.</p>
